

EAS Academy – introductory offer for members of National Atherosclerosis Societies

As an introductory offer, members of national atherosclerosis & related societies now have **free** access to the following three short courses on the EAS ACADEMY:

- [Statins in cardiovascular prevention: Successes and problems](#)
(6 lectures)
- [The proof of causality for LDL-C in atherosclerosis](#)
(3 lectures)
- [New aspects on the genetics of atherosclerosis](#)
(2 lectures)

These three topics should be of great interest and will give the most recent frontline knowledge and research in the field.

How to begin

If you are new to EAS Academy, you should start by going to <https://ym.eas.websy.se/> and creating a Username & Password. Once you've done that, log in to <https://academy.eas-society.org> then click on the links above to start viewing the course presentations.

...if you enjoyed these, contact us to receive a **free individual membership subscription for 2018**

Access to Premium educational content on EAS Academy is one of the benefits of being a full individual member of EAS. If you enjoyed the above, and would like to see other recent presentations, please send an email to office@eas-society.org – we have a limited number of complimentary individual memberships for 2018 to give away.

Find out more about EAS membership at www.eas-society.org.
